EBTC INTERNET & PHONE PLANS

Beginning of the year is always a great time to review your 2022 plan. You no longer need phone service to get internet service with us. You can visit our website at www.eastbuchanan.com and review our service plans. If you need any assistance please don't hesitate to call the office at 319-935-3011.

Residential Rates	Winthrop & Quasqueton Internet/ Phone	Aurora & Stanley Internet/ Phone	Internet w/o Phoneline	"BEST EFFORT" DOWNLOAD/UPLOAD SPEEDS
Lifeline Plan	\$73.45*	\$73.70*	N/A	10/10 Mbps
Basic Plan	\$91.45*	\$91.70*	\$79.95	50/50 Mbps
Fast Plan	\$118.45*	\$118.70*	\$109.95	350/100 Mbps
Fastest Plan	\$158.45*	\$158.70*	\$149.95	1 Gig = 1000/500 Mbps
	*plus taxes & surcharges			

If you are tired of telemarketing calls you can visit <http://www.donotcall.gov> to put your number on the FCC's Do Not Call list. Once you register your phone number, 31 days later you should be removed from telemarketers' calling lists. Once registered, it does not expire. The exceptions are political calls and any pre-existing business relationships.

Fiber Project Update

Since EBTC had finished installing fiber in our rural Winthrop and Quasqueton area the end of 2021, EBTC is going to move forward with our fiber construction plans in the towns of Stanley and Aurora. EBTC techs have been completing site surveys in the town of Stanley and Aurora. If you live in either of these towns our tech will be stopping by. During a site survey we will need to know if you have any underground objects. Our tech will also need to come into the home to decide with you where we should bring in fiber service so we do it the right way the first time. Fiber construction in the towns of Stanley and Aurora will begin in the spring of 2022. EBTC will continue to apply for more grants to help with funding of deploying fiber as the cost of fiber has doubled since last year. With the need for faster internet with so many working from home, taking classes from home, having doctor visits from home and many more reasons, EBTC is trying to get fiber to all of our remaining customers as soon as possible. Please call our office with any questions.

Corn Beef and Cabbage

- 3 Pound Corned Beef brisket
- 1 head of green cabbage
- 1 Large Yellow Onion
- 8-10 gold baby potatoes
- 1lb of baby carrots
- 3 cups of water
- 3 tbsp dijon mustard
- 1-2 tbsp minced garlic
- fresh ground pepper
- 2 tbsp brown sugar

1. Place the onion, potatoes and carrots in slow cooker
 2. In small bowl combine the water, mustard, garlic, sugar, pepper and pour over the vegetables.
 3. Add corned beef brisket and then the cabbage
 4. Cover and cook on LOW for 8 to 9 hours
- Horseradish Cream Sauce for dipping

Does Your Router have 2.4 Ghz and 5.8 Ghz frequencies?

Did you know you will be able to get better wi-fi service from 2.4 Ghz when connecting a mobile device such as cell phone, laptop and or ipad. Connecting to 5.8 Ghz is better for devices that will not move throughout the house and stay fairly close to the router such as TV, Alexa and or camera system. Another important tip when connecting to wi-fi service is to always have your router in a central location away from other electrical interference. If you are having any issues with your wi-fi service please be sure to call (319) 935-3011. Our techs will be able to trouble shoot different scenarios that might be blocking your wi-fi service.

Very Soon we Spring Forward!
March 13th 2022

Our Sunset will be 7:11 pm

Who's ready?
